EDUCATION

Rice University Ph.D. in Computer Science Dissertation (Tentative): <i>Towards Robust and Scalable Task and Motion Planning in the Real World</i> Advisor: Dr. Lydia E. Kavraki Committee (Tentative): Lydia E. Kavraki (Chair), Vaibhav Unhelkar, Kaiyu Hang, Marcia O'Malley	Aug. 2019 – May 2024 (<i>expected</i>) GPA: 3.94/4.0
University of Michigan, Ann Arbor M.S. in Electrical and Computer Engineering	Aug. 2017 – Apr. 2019 GPA: 4.0/4.0
University of California, Berkeley Visiting Student, Department of Electrical Engineering and Computer Science	Aug. 2016 – Dec. 2016 GPA: 4.0/4.0
Southeast University, Nanjing, China B.E. in Information Engineering	Sept. 2013 – Jun 2017 GPA: 3.73/4.0

RESEARCH EXPERIENCE

Kavraki Lab, Rice University <i>Advisor: Dr. Lydia E. Kavraki</i>	Aug. 2019 – Present
<ul style="list-style-type: none">Lead several research projects and authored papers in the field of robotic task and motion planning<ol style="list-style-type: none">Extend task and motion planning to break the standard assumptions prevalent in the field. Develop methods that enable robots robustly and efficiently accomplish long-horizon real-world manipulation tasks, even with limited domain knowledge of the world. Perform extensive real-robot experiments and share collected data as open-source dataset.Develop task and motion planning methods that focus on scaling multi-robot collaborative manipulation and coordinated navigation, collaborating with control systems specialists.Combine traditional task and motion planning solvers with cutting-edge developments in AI such as large-language-models (LLM) for powerful, robust and flexible robotic frameworks.Develop software that contributed to the lab infrastructure, led to lab demos, and shared for research.	
Lab for Progress, University of Michigan, Ann Arbor <i>Advisor: Dr. Odest Chadwicke Jenkins</i>	Mar. 2018 – May. 2019
<ul style="list-style-type: none">Collaborate in several research projects and co-author papers on (1) robot learning from human demonstrations, (2) grasp pose detection algorithms for transparent objects.Responsible for the construction and maintenance of the manipulation pipeline on the Fetch robot.Perform an on-site demonstration of mobile manipulation at Magna International, Troy.	
Information Security Lab, Southeast University <i>Advisor: Dr. Liquan Chen</i>	July. 2015 – Jun. 2017
<ul style="list-style-type: none">Collaborate as undergraduate researcher on wireless sensor network.Author undergraduate thesis on encryption algorithm.	
Undergraduate Research Project at Southeast University <i>Position: Research Team Leader</i>	Dec. 2014 – Dec. 2015
<ul style="list-style-type: none">Architect the scripts that integrate ultrasonic module, steering engine, and control logic.Lead the team to design and assembled the mechanical and electrical elements.

AWARDS

Andrew Ladd Memorial Excellence in Computer Science Graduate Fellowship	2023
Outstanding Graduate of Southeast University (top 2%)	2017
Best Undergraduate Thesis Paper (Southeast University)	2016 – 2017
University Award for Outstanding Student Abroad (Southeast University to UC-Berkeley)	2016
The Second Prize in University Mathematical Modeling Contest	2014 – 2015
Mitsubishi EE Scholarship	2013 – 2014
The Third Prize in University Robotics and CV Contest	2013 – 2014

TECHNICAL SKILLS

Robotics Specialties	Task and motion planning, AI planning, model checking, motion planning, multi-robot systems, Markov decision process, behavior trees, LLM, reinforcement learning, deep learning, SLAM, computer vision
Robotics Hardware	Fetch, UR5, Baxter, Vicon System, Depth Camera, Lightfield Camera
Programming	C/C++, Python, JAVA, MATLAB
Software & Tools	ROS, OMPL, Robowflex, MoveIt, DART, Gazebo, PyTorch, Tensorflow, OpenAI Gym, FPGA, Linux, Latex, Markdown, Git, Docker, Anaconda

TEACHING EXPERIENCE

Algorithmic Robotics (COMP 450/550)

Rice University

· Teaching Assistant

Fall 2021

· Teaching Assistant

Fall 2020

SERVICE

Organizer Texas Regional Robotics Symposium 2023

Reviewer ICRA, RA-L, T-RO, T-MECH
